¹ Reported counts include only paid and life members (*i.e.*, complimentary, exchange and lapsed members are excluded).

² The 2021 decrease in membership is attributable in part to a change in the treatment of libraries that subscribe to our journal. Library subscribers were treated as members and included in our membership count prior to January 1, 2021. Under AIHP's new publication arrangement with the University of Wisconsin Press, libraries must purchase journal subscriptions directly from the publisher. Therefore, as of January 1, 2021, we no longer include libraries in our membership count. This change accounts for 42 of the 56 lost members.
